Dear Manoj

Short feedback regarding our India tour that you organised for us , travelling October 2013 (feel free to use on your website if you desire).

The whole trip was absolutely fantastic. Everything was organised perfectly, All drivers met us as arranged and were always very helpful and friendly, ensuring we had reached exactly the right place before leaving us (essential when getting on overnight trains!).

Hotels were, without exception, superb with excellent staff, amazing staff and well situated.

The tour itself gave us the opportunity to see true India, visiting all desired sites without feeling we were rushing. I would especially like to thank you for the patience you showed us at the organisational stage, frequently changing itinerary as we changed our minds, and searching so hard for cheaper flights etc.

Staying with and meeting your wonderful family was a highlight.

India is a fascinating country , with amazing culture, people, buildings, wonderful flora and fauna and can not fail to provide the holiday of a lifetime!

Overall, THANK YOU for a wonderful trip, we will definately recommend your company to anyone interested in an individual, tailor-made tour!

Regards
